MOGUchan™

Enter the domain of the Mole Men if you dare! Let MOGUchan be your guide, collecting fruit and staying clear of the goggle clad Mole Meo who enter daylight to drive MOGUchan from their garden paradise. MOGUchan can travel oo the ground or quickly dive into the tunnel to escape the Mole Men. Eat the flashing green heart and the Mole Men become paralyzed, allowing MOGUchan to run rampant through the garden for a short period of time.

MOGUchan is a game for all levels of video game players. It can be learned easily and makes the player come back for more.
